

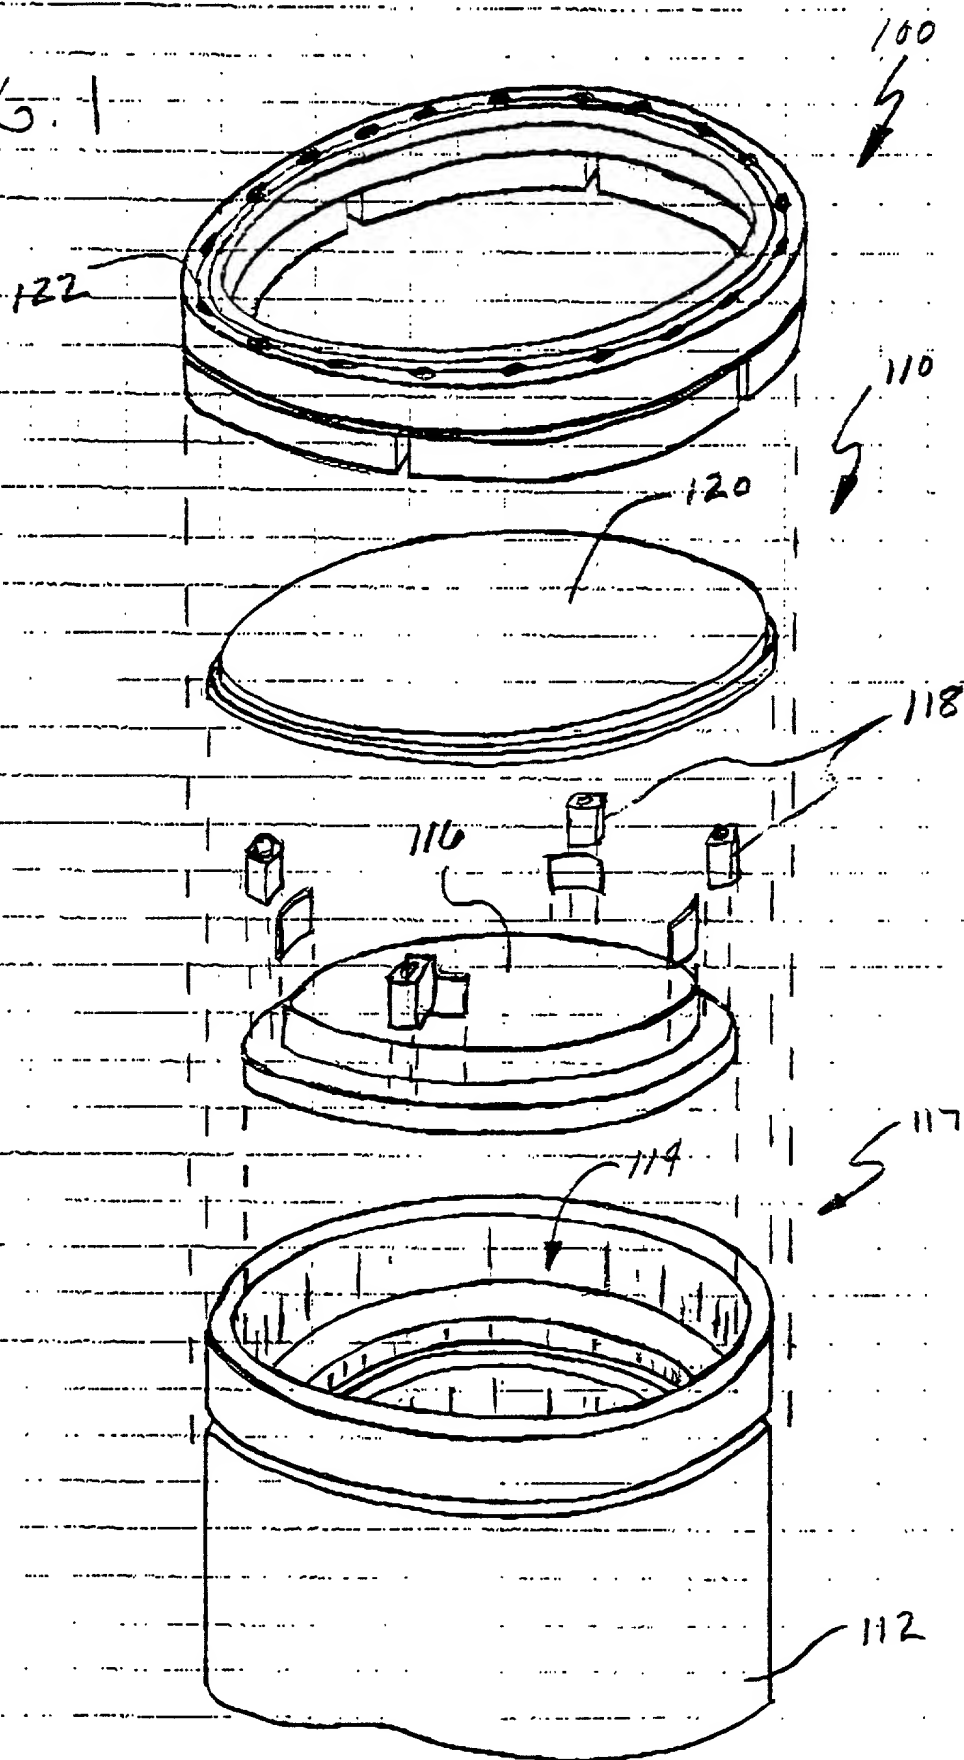

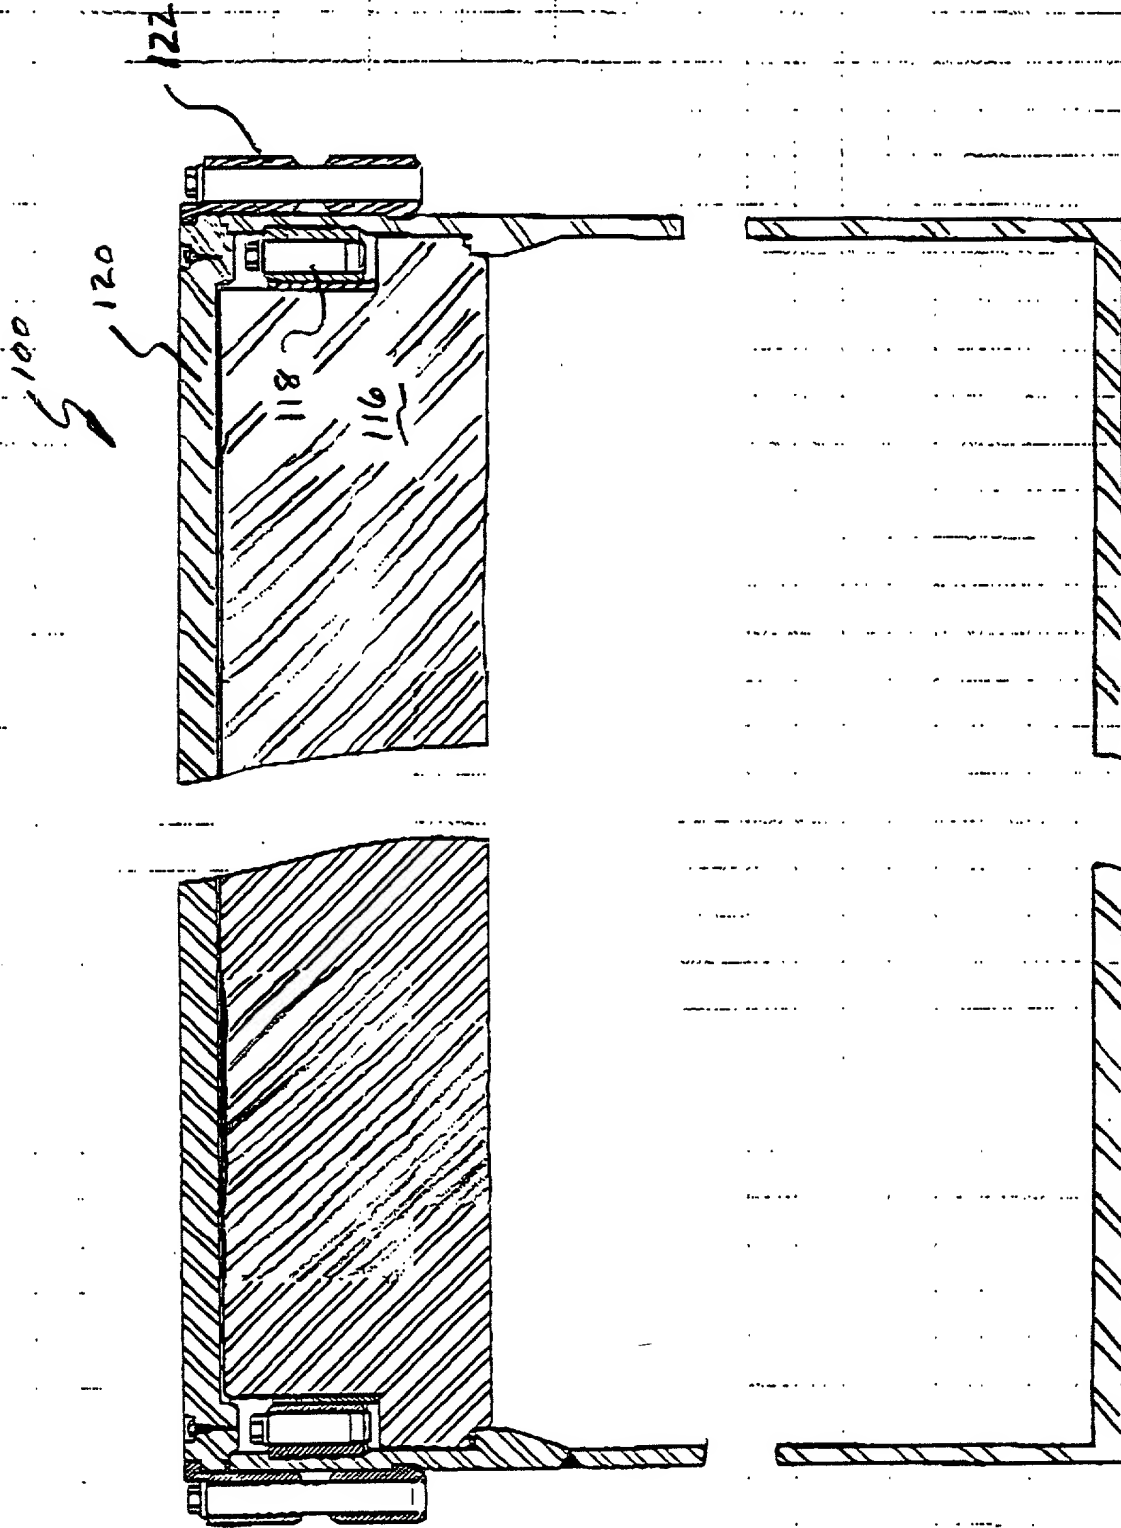

Figure 2: Schematic representation of the experimental design. The diagram shows a flow from 'Stimulus' to 'Response' and 'Reaction time'. The 'Stimulus' is a 2x2 grid of letters. The 'Response' is a 2x2 grid of letters. The 'Reaction time' is a 2x2 grid of letters. The 'Stimulus' and 'Response' are connected by arrows. The 'Reaction time' is connected to the 'Response' by an arrow. The 'Stimulus' and 'Response' are also connected by a double-headed arrow. The 'Reaction time' is also connected to the 'Stimulus' by a double-headed arrow.
